PROJECT CARGO HANDLING.

SSS provides a variety of ocean freight services to any destination in the world. We have technical and commercial expertise, and treat each project individually with a client-centric approach.

Experience :

LCT - JAKARTA - BALIKPAPAN

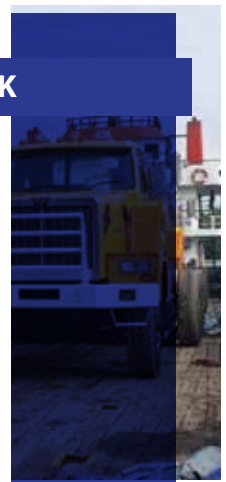

- Handling Import And Delivery
1 SET Gas Lift Compressor

Ocean Freight Services

When you're still wondering how to move it, we've already got something in mind. From project forwarding, general cargo services, air freight and customs clearance to inland transportation, warehousing and consulting, our experienced specialists and strong partners all over the globe have everything it takes to make sure that when it comes to moving, nothing stands in your way.

LCT - TRUCK SUK

O O G **OUT
OF
GAUGE.**

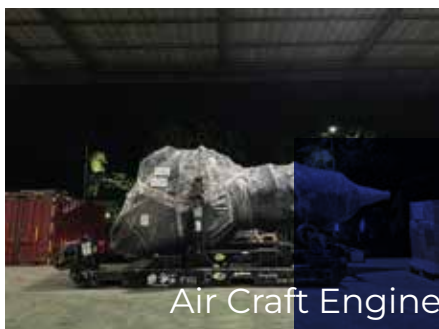

FLAT RACK CONTAINER

OOG (OUT OF GAUGE) Cargo is cargo size over the general container. Using Flat rack container or Open Top container to transport cargoes safely. Requires an understanding of the cargo and how to ensure safe transportation.

AIRCRAFT ON GROUND.

Aircraft on Ground means that a plane can not fly for technical reasons. In the case of an AOG the airmen On Board Couriers are ready to bring the desperately needed spare parts as fast as possible to the grounded plane to have it repaired, thus keeping the costs and the unhappiness of the passengers at a minimum. We manage the entire shipment process and deliver the spare parts in person to any destination worldwide, which guarantees an efficient and secure process for everyone involved – the airline, passengers and senders of airfreight – this is a troubling scenario. A grounded airplane creates delays in air traffic, cancellation of flights and unhappy customers. This can get very expensive and generates daily costs in the six- and seven-digit area.

Air Craft Engine

ATA CARNET TEMPORARY IMPORT / EXPORT

Temporary Import using Carnet can be done for goods with any intended use.

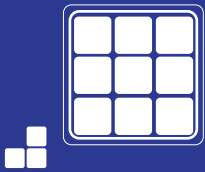

ATA CARNET is used for imported goods with the following purposes:
Concert Equipment, Exhibition, Fairs, Sports Event and other purposes.

1. For Professional or Expert Equipment.
2. For Educational, Scientific or Cultural purposes.
3. For Sports Event purposes.
4. For Exhibition and Fair purposes.

DOMESTIC LOGISTICS IN INDONESIA

FCL

FULL CONTAINER LOAD

A shipping method in which one container is used entirely by one shipper or consignee.

LCL

LESS-THAN-CONTAINER LOAD

This is different from Less Container Load (LCL), where one container is filled with goods from several shippers.

AIR LOGISTICS

Our commitment to support your business by providing a variety of exclusive services, because your success is our main goal.

TRUCKING

Find reliable and efficient logistics solutions to strengthen your company's supply chain with SSS.

PERMIT.

- PI (Persetujuan Impor); Ministry of Trade
- LS (Laporan Surveyor); Preshipment Inspection at POL
- BPOM SKI ; Ministry of Food and Drug
- B3 ; Ministry of Environment and Forestry
- B2 ; Ministry of Environment and Forestry

The purpose of this permit is to regulate and supervise certain activities, ensure security, and protect the rights of the parties involved.

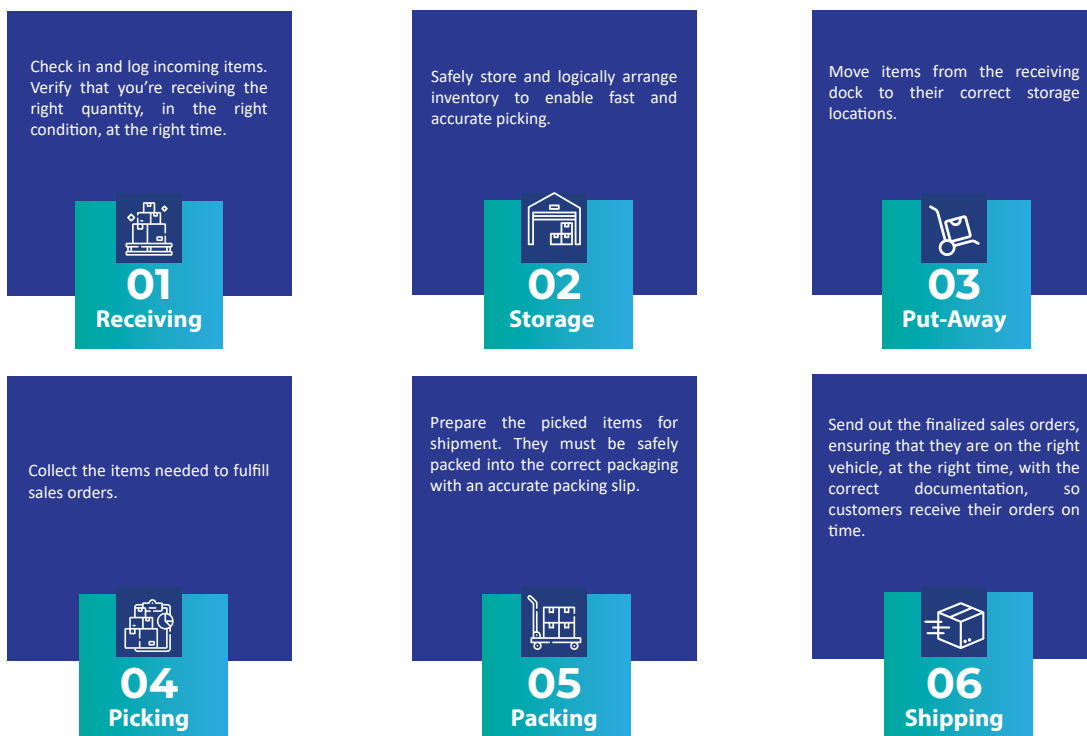

All permits on limited restrictions we can help handle

WAREHOUSE MANAGEMENT.

Because one of the benefits is coordinating the distribution of goods to avoid an imbalance in demand and supply.

Warehouse management includes six core processes. Each process influences the efficiency of the next, so every step must be optimized for the warehouse operation to run like a well-maintained machine :

OVERSEAS MOVING.

Moving house overseas

Whether you're moving a few boxes or your entire apartment overseas, moving and shipping companies can help you determine the right type of transportation to move it. There are three ways to do this: by sea, air, or land. The method you choose usually depends on the destination.

Dangerous Goods (DG) can be transported by airplane and other transportation vehicles, by fulfilling the requirements, rules and procedures for handling DG in accordance with the type/class/-classification of DG goods.

SSS accepts shipments of dangerous goods by following and complying with applicable regulations, including IATA standards on Dangerous Goods Regulations, AVSEC National Regulations and policies set by each airline operator.

DELIVERY MECHANISM

Mechanism or procedure for sending Dangerous Goods by air, following the following steps:

Contact the SSS call center to make an order or reservation for delivery schedules, departure schedules, and delivery destinations, including the availability of space on the aircraft, as well as the possibility of connecting flights.

Fulfills all document requirements stipulated according to the type and class of Dangerous Goods sent.

Meets packaging and labeling requirements according to IATA Dangerous Regulation guidelines.

“ TO BE A LEADING AGENCY COMPANY WITH STRATEGIC INVESTMENT TO EXPAND OUR SERVICES TO THE ENTIRE REGIONS”.

PT. SURYA SURINDO NUSANTARA

is a Shipping agency company in Indonesia Ports, was established in December 2021, located in Jakarta, Indonesia. We are here to serve the growing demand for trusted and reliable vessel agency.

Customer First

We understand that by supporting our customers to achieve their objectives, we will ensure our own success.

Commitment

As a service company, we are focusing into commitment work so that the produce high standard and quality service that can be accounted for by customer.

VISION & MISSION

01 VISION

To be the biggest and trusted shipping agency.

02 MISSION

Provide services that focus in each customer need. Provide solutions for every problem faced by customer.

SHIPPING AGENCY.

We aim and commit to introduce world - class integrated agency services to meet customer solution and satisfaction, as well as to respond to the growing global trade market.

We have experienced as vessel agent for various cargoes in Indonesia Ports :

iron ore, coal, palm kernel expeller, palm kernel shell, wood pellet, granular urea in bulk, steel product, project cargo, anhydrous ammonia, etc.

Vessel Clearance

We have a good relationship and coordination with local authorities, as long as all administrative requirements are complete, system application is smooth, vessel is in good condition for sailing, then we can ensure that the port permit can be issued on time.

Port Information

We commit to provide port information transparently and accurately, therefore owner can make the best decision and detailed planning thus loading/discharging activity goes smoothly.

O OWNER P PROTECTIVE A AGENT.

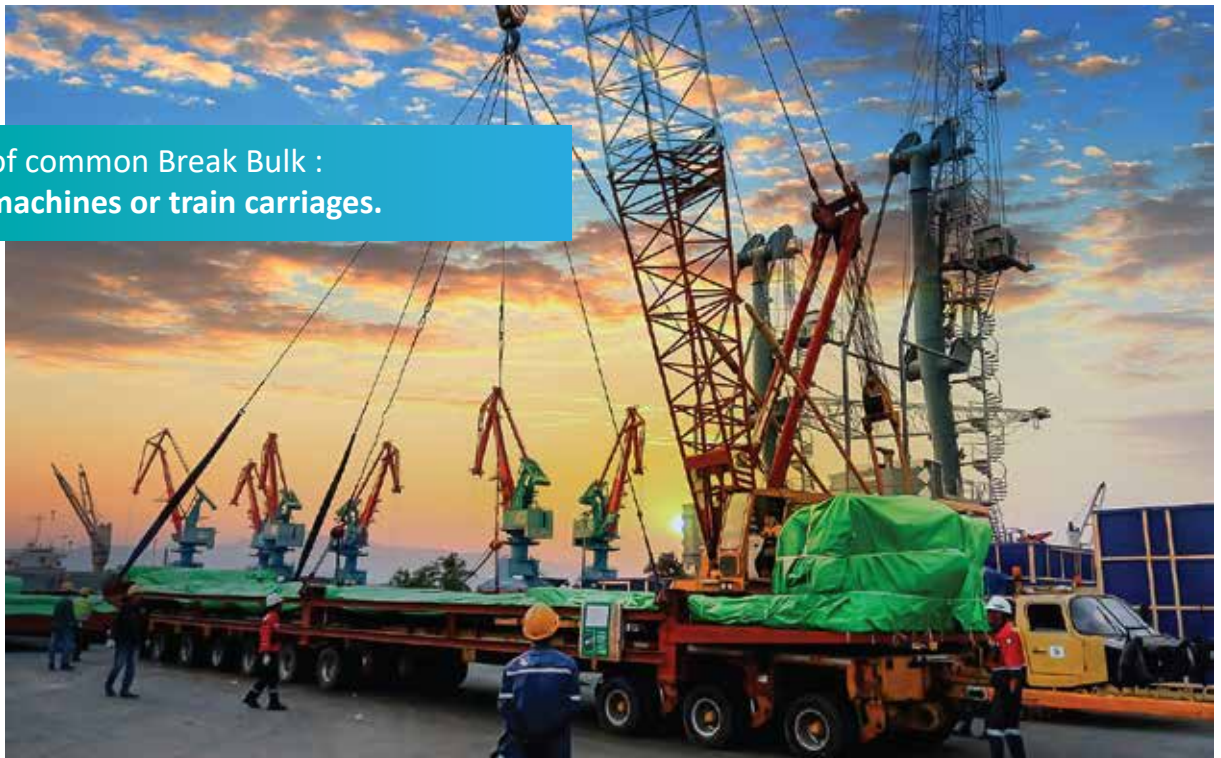

We understand, sometimes every existing shipping has a contract/condition where it's obligatory to appoint an agent recommended by the charterer. Therefore to protect the ship owner we can act as OPA (Owners Protective Agent) which will provide updated conditions and also the best cost for this service.

As protective agents we ensure that your interests are well taken care of. This helps you avoid any conflict of interest that may arise with many stakeholders involved in a port call. Satisfaction of ship owners is our satisfaction as well.

STEVEDORING.

The business of stevedoring is a business activity engaged in the loading and discharging of goods to and from ships at the port.

Examples of common Break Bulk :
industrial machines or train carriages.

PROJECT CARGO HANDLING.

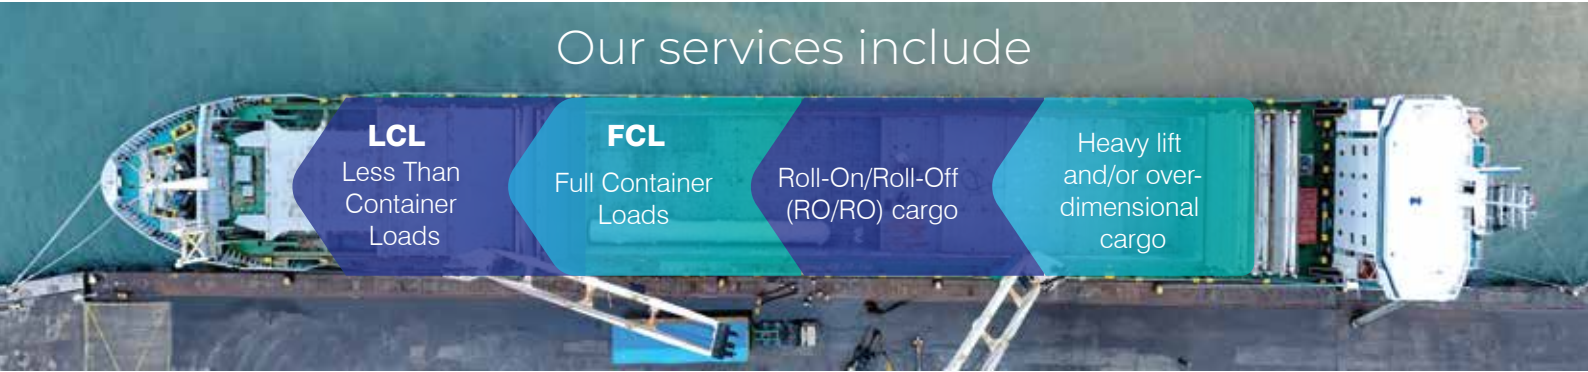

When you're still wondering how to move it, we've already got something in mind. From project forwarding, general cargo services, air freight and customs clearance to inland transportation, warehousing and consulting, our experienced specialists and strong partners all over the globe have everything it takes to make sure that when it comes to moving, nothing stands in your way.

Ocean Freight Services

SSN provides a variety of ocean freight services to any destination in the world. We have technical and commercial expertise, and treat each project individually with a client-centric approach.

Air Freight Services

SSN operates air freight consolidation hubs at strategic locations around the globe where items are expedited and sent out and our IATA-trained experts control documentation.
